IRONHORSE / RAILROAD CONTRACTORS

Industrial spur bid checklist

A starting brief for a new facility connection or yard expansion.

The operation

- ☐ Facility address, site contact, and connecting railway
- ☐ Intended commodities, car types, and expected traffic
- ☐ Target operating date and procurement deadline

The proposed work

- ☐ Track plan with approximate lengths, turnouts, and loading areas
- ☐ Available drawings, surveys, and geotechnical information
- ☐ Civil work, drainage, utilities, and material supply responsibilities

Access and acceptance

- ☐ Road access, laydown areas, and construction constraints
- ☐ Railway interface and owner design requirements
- ☐ Inspection, testing, handover, and documentation expectations

Planning aid only. Confirm the scope, applicable owner requirements, and responsibilities with the project team.
